Vision of the National Education Policy 2020

- 1 An education system that contributes to an equitable and vibrant knowledge society, by providing high-quality education to all
- 2 Develops a deep sense of respect towards the fundamental rights, duties and Constitutional values, bonding with one's country, and a conscious awareness of one's role and responsibilities in a changing world
- 3 Instills skills, values, and dispositions that support responsible commitment to human rights, sustainable development and living, and global well-being, thereby reflecting a truly global citizen

- Shift towards competency-based and education.
- Curriculum content will be reduced subject to its core essentials, to move for critical thinking and more discovery-based, discussion-based analysis-based learning.
- Students will be given increased and choice of subjects to study, particularly secondary school - including sports, physical education, the arts, and crafts.
